

# LYNX Tablet/Laptop Stand

The LYNX Tablet/Laptop Stand by ErgoVerse serves the needs of both tablet and laptop/notebook users. This sturdy aluminum stand will accommodate virtually any tablet and laptops up to 17". The LYNX folds down into a compact package for transport but can be readied for use in under a minute. The included fabric storage sleeve offers protection for both the stand and devices when travelling. A built-in fan can be run off a USB port to provide cooling for longer work sessions.

The LYNX offers 6 angled settings. Laptop or notebook users will benefit from the elevation of the monitor which reduces the degree to which their neck is bent while viewing the screen. Tablet users are also able to receive similar ergonomic benefits by aligning their tablet to reduce the degree to which they bend their neck, thereby optimizing viewing. Placing the tablet on a stand lets the hands relax and reduces the risk of developing issues related to sustained static grip. An external keyboard and mousing device should be employed when using the LYNX.

## ErgoVerse LYNX Tablet/Laptop Stand Specifications:

Weight: 608 g  
Folded Dimensions: 25x18x1.1 cm  
Expanded Dimensions: 27.3x18x1.1 cm
