

||| GOLDTOUCH FLEXMOUSE

The Goldtouch FlexMouse provides all the ergonomic benefits you've come to expect from Goldtouch plus more! The FlexMouse is fully adaptable to every employee, with small, medium, large, and extra-large mousing backs to suit a wide range of hand sizes. This allows employees to customize their mousing experience, reducing the need to strain in any one direction in order to point and click.

The FlexMouse's different backs can also be swapped out to help employees perform different types of tasks. For instance, smaller backs can be used for tasks that require more precision, while larger backs can provide more comfort while an employee is doing more generalized mousing. Four buttons ensure clicking is always within reach and without strain. The FlexMouse is available in right-handed wired and wireless varieties.

||| FEATURES AND BENEFITS

- **Models:** Available in Bluetooth Wireless and Wired Right-Handed versions.
- **Optical DPI Resolution:** Features 800, 1200, 1600, and 2000 DPI for wired versions and 1000, 1600, and 2000 DPI for wireless versions.
- **Sizes:** Features 4 interchangeable backs in Small, Medium, Large, and Extra-Large to accommodate hands of every size.
- **Compatibility:** The mouse is compatible with Windows XP, Windows 7, Windows 8, Windows 10, and Mac OS X 10.4 or later.
- **Slope:** 24° slope keeps wrists neutral to reduce wrist pronation.
- **Easily adjustable:** Simply pull up on the mousing backs to remove from the mouse. Attachments connect via two magnetic prongs located on each mousing back that connect to two ports located on the mouse base.
